

Instructions for registration of the classes of Physical Education and Sports courses

You have mandatory classes of Physical Education (PE classes) in the first two semesters. If you are interested in other PE classes, you can enroll up to two additional codes for the optional PE classes (codes TVV and TVV0). You also have the opportunity to participate in sports courses (the code for a winter course is TVKZV). Follow these instructions for the registration of PE classes / sports course:

1) Enroll the code in KOS

Mandatory PE classes – the enrollment of the PE classes will be done by the study department of your faculty in the first semester.

Optional PE classes / Sports courses – **students have to enroll the codes themselves.** If your electronic enrollment in KOS is already closed it is possible to ask for additional enrollment at your study department (within 14 days from the start of the semester).

- The survey of the codes in KOS for all faculties can be found at our website: www.utvs.cvut.cz/en/kos-codes.
- You will find all PE subjects in KOS under the Institute of Physical Education and Sport (not under your faculty)!
- Follow these steps to enroll the PE classes and/or sports courses in KOS:

Subjects → Course enrollment → Course enrollment – According to code → enter the “Course code” you want to register (e.g. TVV) and “Recommended semester” (the semester you are enrolling to) → click to “Enroll”

You will not be able to register particular classes of PE/sports courses at UTVS webpage without their enrollment in KOS!

2) Register the course /CLASSES/ at the UTVS webpage
