

Simple programs

Simulation and estimation of categorical model (E01_est_categ.sce)

Simulation and estimation of regression model (E02_est_regr.sce)

Simulation and estimation of regression model with LS (E03_est_regrLS.sce)

Initialization and estimation of categorical model (E04_init_categ.sce)

Initialization and estimation of regression model (E05_init_regr.sce)

Prediction with categorical model (E06_pred_categ.sce)

Prediction with regression model (E07_pred_regr.sce)

Prediction with regression model + initialization (E08_pred_regr_ini.sce)

State estimation (E09_state_est.sce)

Classification with known model (E10_class.sce)

Classification with unknown model (E11_class_est.sce)

Classification with Naive Bayes method - known model (E12_class_NB.sce)

Classification with Naive Bayes - unknown model (E13_class_NB_est.sce)
